

Course Registration Procedures

Once a student has signed and returned the GCS Enrollment Agreement, an e-mail will be sent from the Registrar with a temporary password in order to enter the registration site.

All matriculated students will receive an automatically generated e-mail two weeks prior to each semester's registration period. (Please see the Academic Calendar for specific registration periods and the Course Schedule for the courses available each semester.) This e-mail will contain instructions and a website link for registration.

Courses must be paid for by credit card upon registration. (Please see Tuition and Fees for specific costs and the refund policy.)

It is recommended that part-time students not take more than two courses per semester. Full-time students should consider three courses per semester as a maximum course load.
